

## First Grade Hall of Fame

After spending the first 7 weeks practicing addition, first graders start the “official” Hall of Fame timed Mighty Minute.

### Categories

1. **1<sup>st</sup> Grade Addition-30 facts**
2. 1<sup>st</sup> Grade Subtraction-30 facts
3. 2<sup>nd</sup> Grade Addition-40 facts
4. 2<sup>nd</sup> Grade Subtraction-40 facts
5. Months and Days-correct spelling and abbreviations
6. “Knowledge Bowl”-100 general knowledge facts written test
7. Contraction Critters- correct spelling of 30 contractions

Category one is the most important for students to master this year. Every student who passes the first category will be recognized with a certificate. Since the program is based on individual abilities, students progress at their own pace. As students successfully complete the required grade level operation, they advance to the next skill category. Students who pass the first four categories of math will continue to move on to multiplication and division.

Numbers 5, 6 and 7 are enrichment categories which are studied at home. The enrichment categories can be taken by students, at their request, after they successfully complete their required grade level math operation (category one). Students who pass all 7 first grade categories will be recognized with an award.

Study guides, for Categories 5, 6 and 7, are posted on the First Grade page of the Falcon Ridge website.
